Date: _____

To Whom It May Concern:

As a member of the health insurance plan, I would like to offer a suggestion to improve our health benefits package.

I use Bowen Therapy as an effective way of maintaining good health. I am very pleased with the results of this treatment and feel it should be covered under my health benefit plan.

Bowen Therapy is a whole-body treatment. Stimulation of the nervous system through gentle manipulation of the fascia/soft tissue helps regulate and encourage better circulation, more mobility, decrease my pain, improve my sleep, and energy. It balances and helps my body function better.

Natural Health Practitioners of Canada (NHPC) & Canadian Examining Board of Health Care Practitioners (CEBHCP) recognize Certified Bowen Health Therapists which are registered with the Association and are required to complete continuing education to remain current in a Bowen Therapy practice. I have every confidence that Bowen Therapists recognized by NHPC and CEBHCP, are skilled, professional and essential to my health care. I believe I should have the benefit of being able to claim Bowen Therapy treatments through my health benefit plan.

For more information about Bowen Therapy, its benefits, and the quality of NHPC practitioners please contact the Natural Health Practitioners of Canada at pdonovan@nhpcanada.org.

Sincerely,
